New York Stock Market

New York, September II.—Speculation wa loriess to-day, with a narrow movemen yaward. It was a day devold of impor at developments. The undertone through ant developments. The undertone diversity was good.

Union Pacific's buoyant rise of yesterday nade it a target, and it showed a loss of early two points at its low figure. In the fternoon there was increased selling of steel and Amalgamated, but toward the lose the market stiffened. Sentiment was heerful. The favorable showing of the steel and Copper statements, ending of the frought in some portions of the corn belt, and the recent improvement in the investment market were all referred to as indicating a betterment in fundamental conditions.

stuart, Democratic nominee for Governor, that the next chief executive will not reappoint Mr. Lee. In a statement a few weeks ago, Mr. Stuart made it plain that this report had not emahated from any promise he had made concerning the office, as he had made a none, and it is regarded as having originated probably from the fact that just before Mr. Stuart's withdrawal from the gubernndrial race in 1995 he told some of his friends that if elected Governor he would not reappoint Commissioner Lee.

Heavy Rains Cause Much Damage to Grayson Pike.

Wytheville, Va., September 11.—The Grayson Pike, on the north side of Lick Mountain, is in a deplorable state. The heavy rains this summer have washed all of the dirt off and left nearly a solid bed of rocks. Persons living on Cripple Creek and along the road who have to travel, are complaining very much. One person who resides in that locality stated that there had been scarcely any work done on it in the last five or six years, with the exception of throwing out a few loose stones. There is a great deal fow loose stones. There is a great deal of travel over this road, and would be more if it were kept in a better condition. This road was built before the war, and is on a splendid grade for a mountain road, but has been allowed to gradually grow worse and worse as the years go by worse and
